# "VAQUERO & BUCKAROO TACK UND EQUIPMENT"

Alf Kreutzer-Berndt founder and owner of "Tackroom Ratingen" is one of the most representative figures of the equestrian art in Germany, he also follows his passion of the traditional way of california and begins to train horses accompanied by the old traditions

••• By JORDY BARTOLOME

Founder and Owner Alf Kreutzer-Berndt starts riding competitions in the late 80's and supported the organization teams on big Shows like "German Open" or "AMERICAN" in Germany. During the years he follows his passion of the "traditional californio way" and starts training horses and keeping the old traditions. Therefor he decided to bring good quality horse gear to his students and customers.

## Tackroom Ratingen

Our shop is the greatest specialist for californio style tack and equipment in Germany but maybe also in Europe.

"TACKROOM RATINGEN" has become a leading supplier for handmade rawhide equipment like bosal, romal reins, reatas or horsehair mecates and for apparel and accessories. Still expanding the inventory, customers inquiries come from Spain, Italy, France, Austria, Hungary, Netherlands, Belgium, Switzerland, Luxemburg, Czech Republic and many more. We want you to know that the cooperation with our customers for us is as important as the close collaboration with our braiders and leather-workshops. All items we offer have to run through a daily professional stake for some weeks before you will find them in the shop. products are used by top professional trainers and in association

with them we developed personal bosal for their personal needs and he feedback of our customers helps us to get better each day and make our products better to fulfill our customers requirement. Although we offer mainly online without shop, all bepreisten product is in stock and can be shipped Same day usually. So no long waiting or ordering times. Pictures without price are usually sets or combinations as we would put together from the current inventory. Obviously, we here seem very common to meet the tastes of our customers, as these suggestions are always sold out fairly quickly. Our Bosals and Mecates characterized by a first-class workmanship

and high quality materials used. We attach great importance to a good degree of flexibility, shape or adaptability to the horses nose and, with proper use and proper care,

value-preserving longevity of the equipment. Last but not least, we advise before and after the purchase and help you find the correct Bosal size for your horse and the correct adaptation to the horse's nose.

Our Bosals and Mecats are manufactured according to our specifications in the USA. We discuss the size, braiding, flexibility and the design as well as the material to be used with our braids so that we can offer exactly the Bosals and Mecats we would use ourselves. We look forward to welcoming you to our homepage. Find out more about our articles and our offer on our Internet presence.
